

Tax Residence Indicator results

Completion date: 06/12/15 20:25

The Tax Residence Indicator (TRI) indicates whether or not an individual is resident in the UK for the purposes of Income Tax and Capital Gains Tax. It does not indicate 'residence' for any other purpose.

Remember that the results given by the TRI are based on the information you provide. Your residence status will depend on your particular circumstances.

HMRC will not see what you put into this TRI, or what it tells you.

At a later date HMRC may want to enquire into your residence status, which would include reviewing your particular facts and circumstances

You have indicated to the TRI that you are UK-resident for the tax year 2015-16.

Based on the information you have given the TRI shows that for the tax year 2015-16 you met split year Case 1.

Your split year date is 03/01/16.

Personal details

Your name is Tiago Almeida.

The chosen tax year is 2015-16.

Previous tax year residence
